

# Variscon Engineering Services Pvt Ltd

( An ISO 9001:2008 Certified Co.)

Variscon Engineering Services Pvt Ltd was established in 2002 in New Delhi. We offers services to all type of clients, corporate offices, Hotel, Hospitals, Malls, Schools, industrial installations, public places and home automation system Pan India. In our journey of almost 15 years, we have executed successfully many projects like Bank of Singapore, Barclays, Yes Bank Limited, Mizhuo, GMR, Chevron, Deutsche Bank, Yahoo, Airbus, Philip Morris, Orient Craft Ltd., BNP Paribas, Google, Dell, SAP Lab, Fortis, Chimmese Aviation, Jindal stainless and many more who are now listed in our prestigious clientele.

Variscon is professionally managed organization, with a team of highly skilled staff and follow these basic principals:

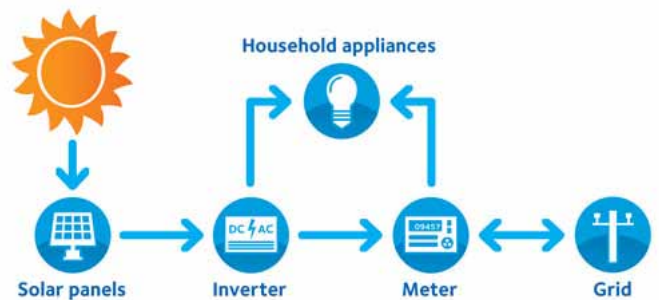

- **Ethical Business Practices**
- **Guaranteed Quality Control**
- **Guaranteed On Time Delivery**

From 2015, Variscon started it's operations in Solar Energy Installations. Variscon is one of the foremost pioneering solar company as a system integrator, installer & one stop solution provider for all your solar needs.

## WHAT IS SOLAR ENERGY?

Solar energy is energy in the form of solar radiation, which is converted to electricity by using photovoltaic, PV, cells. These cells are made from materials which exhibit the "photovoltaic effect" i.e. when sunshine hits the PV cell, the photons of light excite the electrons in the cell and cause them to flow, generating electricity.

## WHAT ARE THE BENEFITS OF SOLAR ENERGY?

- ❖ Save your Money
- ❖ Save the Environment
- ❖ Sustainable and Abundance
- ❖ Easy and Low Maintenance
- ❖ No Noise Pollution
- ❖ Increase Your Home Value
- ❖ Create Energy Independence
- ❖ Guaranteed Performance
- ❖ Take Advantage of Incentives
- ❖ Solar is a Secure Investment

## WHAT'S-IN-IT-FOR-YOU?

Solar energy is good, but how does it benefit you? This is how you get benefitted by use of solar energy:

## PAY FOR 8 YEARS & GET FREE ELECTRICITY FOR 25 YEARS:

Life Span of a Photo Voltaic cell is 30-40 years. It's also a proven fact that based on the amount

2

## Our Process of Implimentation

of solar radiation which are available to you, pay-back period of a Solar energy solution is 6- 8 years (after considering all the interest cost of you investment, Maintenance of the system & battery & inverter costs). So, you pay for 8 years at max, but after that you are going to get free electricity. With Electrical tariff increasing year after year, this is a very intelligent investment for your “bright” future.

## YOUR CONTRIBUTION TO FUTURE GENERATION & SOCIETY

Most of the current electric stations are generating electricity using Thermal power, which produces lot of CO<sub>2</sub>. Apart from that, gas which is used to burn these is also going to end, once the gas supply resources diminish. You can be proud after investing in solar energy that you are contributing for your future generations by decreasing the CO<sub>2</sub> emissions, helping the resources to last for more years & have a Green sustainable solution for the future.

## WHAT IS VARISCON’S OFFERING?

Variscon provides solutions in following areas:

- ❖ Solar Home Systems
- ❖ Rooftop Solar Power systems
- ❖ Solar telecom solutions
- ❖ Solar Powered pumps
- ❖ EPC & Projects

## WHY VARISCON?

- **Our vast experience of execution of projects:**

Variscon is a professionally managed organization, with a team of skilled staff used for services. We have 14 years of experience in doing Corporate Electrical Interior Projects, Hotels, Multistory Building, Schools, High tension set up and Banks. Our policy is to ensure customer satisfaction as we do not compromise on the quality of material, workmanship, service and time. This is evidenced from our clients who have repeatedly awarded us with time bound projects of intricate nature.

- **Tie-up with Leaders of PV solar panel vendors:**

Based on our principal of “Quality First”, we have tie ups with only the best solar panel manufactures. This is an investment which is going to last for the lifetime & we promise to you that this is an intelligent investment, if you only rely on good Quality & don’t just the cost.

- **Guaranteed Service at nominal maintenance cost:**

As each hour of Sun rays is generating savings & returns for you, we ensure that you get a quality service based on service level agreements & your system works with full efficiency. This helps you in minimizing the payback period & increasing your savings & life span of the PV panels.
